ONYX Solutions Limited
is on a mission to reinvent the impact that compliance training can have.

In our business, it’s not enough to make someone aware of risks. That’s par for the course. We’ve got to change people’s behaviour. That can be a tall order for an eLearning course, but day-in, day-out, that’s what we aspire to do.

We believe it’s our duty to empower companies to continue to remain strong and resilient businesses. By thinking big, and starting small. By switching on one disengaged employee, with one really relevant course. We’re making every effort to transform compliance training from a ‘required burden’ into a ‘valuable opportunity’.
